SUMMARY

As a Web Developer & UI/UX Designer, I specialize in crafting responsive and user-friendly websites that combine functionality with engaging design. Experienced in Front-End Development using Laravel, React, and Tailwind, with a strong foundation in User-Centered Design principles. Currently pursuing a Bachelor's degree in Informatics Engineering at Universitas Negeri Surabaya with GPA 3.82, where I have honed both technical and creative skills through academic projects and freelance work. Passionate about building digital experiences that are not only visually appealing but also accessible and efficient.
